Studbook breeding programme

Ouroborus cataphractus
(Armadillo Lizard)

Picture from Leipzig Zoo – www.zoo-leipzig.de

Annual report 2017

Fraser Gilchrist studbook keeper
Rene de Haas co-studbook keeper

Contents:

1. Introduction

This is the latest report on the Armadillo Lizard population registered with the European Studbook Foundation.

2. Studbook Population

As at February 2016 the total living studbook population is 32 (12.11.7) individuals.

3. Locations

As far as the studbook is aware, this species is kept at 9 different locations throughout Europe. The only zoological establishment to have registered their animals within the studbook is Leipzig Zoo in Germany where they house 1.1 animals. There are a further 2.0 and 3.3 at private locations in Germany. The remaining animals within the studbook are housed at private locations throughout the European Union. 1.1 individuals are housed at a private location in Belgium, 2.3.3 animals are housed in Sweden, 3.3 are housed in the Netherlands and a further 0.0.2 animals by a private individual in France.

4. Births

No births have been reported within the last 12 months.

5. Imports

No imports have been reported.

6. Deaths

No deaths have been reported.

7. Transfers / Additions

No transfers or additions have been reported.

8. Discussion Points

Nothing to add for this year report.

9. 2017 – A year in review

We will continue to promote the studbook and identify individuals that may be entered into it.

10. 2018 – A year in preview

We will continue to promote the studbook and identify individuals that may be entered into it.
